### Reporter's Corner:

#### ROBLOX Groups: The Future

A lot of people on ROBLOX use the social-group feature primarily, for war clans, fan clubs, privileges for games, etc. Groups will be around as long as ROBLOX. People get famous on ROBLOX, people discuss what they love, and people have good times. But what is the future of the beloved feature?

I investigated and asked the public, epicryanman says, "The future of groups will probably be group only chat rooms, in-game joining, and group item trading." He brings up a good point, there won't be a need to have whole group pages, instead maybe a group panel on the "My ROBLOX" page. Icyscorpion says, "I think the future of groups will be corrupt." (Corrupt - Having or showing a willingness to act dishonestly in return for money or personal gain.) So he thinks that ROBLOX will charge people, as a BC beta feature. One last opinion, this is from comwizard, "I believe creative groups will take over pushing out war clans." That is almost a guarantee.

So I feel, that groups will be obsolete because everyone will have party chat and ROBLOX will offer free hosting for personal sites. For an example: "Randomletters.ROBLOX.com." People will be able to join the sites party, so people will be able to create parties like that, sort of like having your own personal minecraft server. In conclusion, we don't know, and we better appreciate ROBLOX while it lasts, don't take anything for granted. Why try and predict the future when will live in the present. Thanks for reading this and I guess I'll talk to you later. This is Team B Report Marth, and I'll catch you all later!

#### What makes a group "Good"

Seems legit for people who want to start a new Military group. I asked around, and found a few answers. Guy890007 said "Lots of members, good admins, very active, good name, lots of ranks, good group owner, and some group events, like contests." Wordlefan had to add "If the owner is very active, and cares about the members, listens to them, it will improve the quality of the group greatly" I went to investigate this myself, and went around to a few groups. I noticed that one thing that never changed in these groups was the fact that the group was active. Now, I remember when I used to be in Fear, and I remember that the promotion system was horrible. 10,000 Kos to get to the 3rd rank! That is why I left, along with several other reasons. Anyways, I seem to be running out of time, and your attention, so I will wrap this up by saying if you would like to have a "Good" Military group, you need to have a good name, good leaders, lots of activity, good and uncopied ads (Just the other day I saw a group copy "Captain RoGo with a toaster"), and you need a good and simple ranking system that everyone would understand. That is all the room I have for this week, so I will see you some time in the near future, around Mid-April, and this is RoGo Reporter Chriseon, signing off.

#### Place Reviews:

<p><b>Raise an ORLY? Owl!</b></p>  <p>Created by: Jmanfh Place visits: 24,000 Visits Rating: 3.5/5</p> <p>Reviewed by: christmangirl</p>	<p>This game, as said in the title, is a new mix up to games. You can feed your owl berries, and watch it grow until it's an 'EPIC OWL.' I bet you even seen an ad, cause for sure he's been taking over the system. Backing up to the game again, the VIP sure boosts your owl's size. A nice feature is that you can name your owl, with a command included. Although it may get a bit boring at times, it's a well-thought game!</p>
<p><b>Ultimate Paintball</b></p>  <p>Created By: Miked Place Vists: 2,998,374 Vists Rateing: 4.5/5</p> <p>Reviewed by: spongebobworldonline</p>	<p>This place might be old but its still fun and filled with players. This game is a roblox classic that still works, The object of the game is to get to the other side of the game and get the flag, With a whopping 2 millions vists! This game you have to try. Just because its kinda old it is still fun the scripting is not really that outdated also. :P</p>

1. What are you most known for? -I am most known for over-advertising.
2. What is your favorite thing to do on ROBLOX? -Besides chair racing? Winning obbies like a boss. I've never entered an obby that I have not completed at some point. Kalozzz's Level 6 tree is the hardest obby I've beaten.
3. What is your favorite game on ROBLOX? -Um, lets see. Besides chair racing, Frozen Peak by Defaultio.
4. What is your favorite hat? -Golden Teapot of Pwnage.
5. What is your favorite gear? -My favorite gear would be the Super G-Disruptor.
6. What inspires you to build/script? -Um, this brings me back four years in time. When I was a tiny, little Robloxian, xLEGOx (AKA Stravant) inspired me to start a career of scripting and become as good as him, if not better. In 2007, hhis cart track was so amazing, it dominated the front page of games, and one game that involved it got multi million hits. "Ride a cart into heaven".
7. Do you plan on reading RoGo every other week? -No, but I do intend to spy over the stats of it whenever I get the time, and they are quite astounding for a Gui.
8. Do you have anything else to say to the readers of RoGo? -Ride some chairs. It will get you somewhere faster.
